

# DIGITAL MENTOR CERTIFICATE

**Hachem SFAR**

Deep Learning Mentor | Aachen

**>. TechLabs**

**2022**

As a TechLabs mentor, you made an important contribution to our unique ecosystem by sharing your knowledge with tech enthusiastic students and supporting them in applying theoretical knowledge in hands-on projects. As a digital enabler, you have taken a fundamental step to help our students learn skills that will shape our digital future.

Winner of the [Google.org](https://www.google.org/impactchallenge) Impact Challenge Germany 2018

# TechLabs Vision

## We Build. Digital. Shapers.

### Learning Accelerator

TechLabs is a **learning accelerator for technology skills**. As a **non-profit organization**, we are dreaming of a world with **no digital illiterates**.

### Two Distinctive Goals

#### Effective Learning

We show people the **most effective way** to build domain expertise in the tech area. We achieve this through a **revolutionary combination of blended & accelerated learning techniques**.

#### Learning at scale without boundaries

We bring our offering to as **many ambitious people** as possible. In particular to those who need it the most and/or create the **most impact**.

### Hachem SFAR at TechLabs

Within the Digital Shaper Program offered by TechLabs, Hachem SFAR was volunteering as a mentor between October 2021 and April 2022. During this time, he supported the project with the title "Alzheimer's Disease", ensuring its successful completion. Further duties included the troubleshooting of technical questions and facilitating participants' learning progress. The program required a work effort of 2 hours per week in order to fulfill both the educational and project part of our program.

We thank Hachem SFAR for his efforts and the impactful collaboration.
